

# Waterman AHW

## Consulting engineers with a progressive approach.

**W**aterman AHW, part of the Waterman International group of companies, provides a comprehensive range of consulting engineering and project management services for buildings, engineering and process systems across a wide range of projects in Australia and Asia.

WAHW draws on the combined strengths of Waterman's extensive operations in the British Isles and Europe, in addition to WAHW Consulting Engineers' longstanding business in both Australia and Asia.

The company is distinguished by the high calibre of its people, its progressive approach to design, and its delivery of practical and cost-effective solutions informed by a firm commitment to the protection of environment and limited natural resources. A client-focused organisation, its objective is to ensure that

the client's aspirations and expectations are fully met. As part of a leading international group embracing all the engineering disciplines, WAHW can offer clients the benefit of a total integrated project.

A hands-on management approach allows WAHW to set up and control multi-disciplinary groups to seek and provide better solutions to fulfil the project brief. At the same time, it recognises the cost pressures of the market and provides cost-effective solutions.

### Extensive project portfolio

Drawing on an extensive project portfolio, WAHW offers in-depth knowledge of a diverse range of market sectors – commercial, residential, retail, industrial, manufacturing, health, education, transport, sport, leisure, tourism and infrastructure. Clients include:

- Citigroup;
- Credit Suisse First Boston;
- ABN AMRO;
- Arthur Anderson;
- State Street Bank;
- Deloitte Touche Tohmatsu;
- Cisco Systems;
- Nortel Networks;
- Telstra;
